

Uranium City Resources (UCR:TSX-V) Announces Results from Contact Lake Uranium Project, Uranium City Mining District, Northern Saskatchewan.

December 7, 2005

TSXV: UCR

Uranium City Resources Inc. ("UCR ") is pleased to announce results from the 2005 exploration program at the Contact Lake Project, which is located in the Uranium City region of Northern Saskatchewan, Canada. The Contact Lake Project is one of ten uranium projects within the UCR portfolio.

Contact Lake Diamond Drilling:

The 2005 summer diamond drilling campaign at Contact Lake Uranium Project area consisted of 3 NQ diamond drill holes totalling 1563 metres.

The following table summarizes the assay results from these holes:

Drill Hole Number	Sample Number	From	To	Length (m)	Au (ppb)	Au (g/t)	Pd (ppb)	Pt (ppb)	Cu (ppm)	Ni (ppm)	Pb (ppm)	U (ppm)	V (ppm)
CL05-01	829542	199.25	199.75	0.50	27		1	1	158	69	52	610	168
CL05-01	825225	485.00	486.00	1.00		0.45							
CL05-02	829548	340.00	341.00	1.00	15		1	4	493	12	147	95	106
CL05-02	829549	417.50	418.00	0.50	3		1	1	249	36	29	448	308
CL05-02	829550	422.15	422.70	0.55	2		1	1	106	14	26	530	84
CL05-02	825324	460.00	461.00	1.00	45								
CL05-03	829552	350.25	350.75	0.50	26		1	2	680	36	116	240	149
CL05-03	829553	415.25	415.75	0.50	2		1	5	4	35	18	361	119

SRC Geoanalytical Laboratories, Saskatoon, Saskatchewan, completed all assaying by multi-acid partial and total digestion ICP scan. Non-radioactive samples were submitted to TSL Laboratories Inc., Saskatoon, Saskatchewan, for Au and PGE analysis.

With the completion of the two drilling campaigns at the Contact Lake and Fish Hook Uranium Projects, UCR is currently compiling data from the 2005 field season consisting of (a) airborne VTEM geophysical survey results with (b) geochemical surveys, and (c) known geology and structure.

UCR is in the planning stage to commence a winter diamond drilling program to evaluate several of the radioactive showing investigated during the 2005 summer field season.

UCR's senior project geologist and QP, Kian A. Jensen, B.Sc., P.Geo. has reviewed this press release.

Forward looking statements:

This news release contains certain forward-looking statements. These forward-looking statements are subject to a variety of risks and uncertainties beyond UCR's ability to control or predict, which could cause actual events or results to differ materially from those anticipated in such forward-looking statements. Although UCR believes that the assumptions inherent in the forward- looking statements are reasonable, undue reliance should not be placed on these forward-looking statements.
